

# UroGenie vs Standard Uroflowmeter

Make the switch to  
transform your office  
uroflowmetry process

## STANDARD

## UROGENIE

### Flexibility

Can only be used in the office, where patients often don't need to void at time of uroflow

Can be used at home, where patients feel most comfortable in their own bathroom

### Cost

Cost ranges from one thousand up to five thousand dollars per uroflow device.

UroGenie devices are free. You only pay for the use of our logging software. We provide customer support for your patients.

### Data

Paper printout that requires scanning into patient EMR.

All uroflow data is uploaded automatically to the patient EMR.

### Billing

Billing is a challenge with standard uroflows as data can get lost or not uploaded properly.

We take care of all the billing for you. So you can focus on patient care.
