

# Remote Patient Monitoring

Take advantage of new Medicare billing codes to increase your office revenue and provide your patients with a higher quality of care. Our turn-key system enables patients to perform their uroflows in the comfort of their homes while you wirelessly receive the test results.

## A New Revenue Stream for Urologists

### RPM PARTNERSHIP

As our RPM partner, Urologists will get a complete turn-key solution. We handle every step of the process.

### NEW REVENUE STREAM

We make it simple for Urologists to increase their revenue with the RPM model. All you need to do is prescribe the uroflow and treat your patients. We take care of the rest.

### INSTANT WIRELESS DATA

Our UroGenie uroflowmeter, made with CHOP patented technology, is the only uroflow that transmits results instantly to the patient EMR.

### PHONE SUPPORT

Our clinical staff provides phone support to your patients and handles all their medical and technical questions.

### EASY COMPLIANT BILLING

The RPM partnership with UroGenie includes our expertise for compliant billing for remote patient services. (Codes 99453, 99457, 99458, and 51741)

### BETTER QUALITY CARE

Your patients will love the convenience of performing their uroflows at home. The result is more accurate results for your treatment plan.
